

Teachers' Examination
For certificates will be held in the public school building in Jackson March 25 and 26. C. A. MACOM, Commissioner.

Notice of Election to Vote on County School Supervision.

Certified copy of order.
STATE OF MISSOURI,
COUNTY OF CAPE GIRARDEAU.
In the county court of said county, on the fourth day of February, 1904, the following, among other proceedings, were had, viz:

COUNTY SCHOOL SUPERVISION
SUBMITTED AT ANNUAL ELECTION.

Now is presented a petition signed by more than one hundred resident freeholders of the county of Cape Girardeau, asking the court to cause the proposition to adopt county school supervision to be voted on at the next annual school meetings in said county on the first Tuesday in April, 1904, as provided for by Section 9810 of the Revised School Laws (1903) of the state of Missouri. And the court having duly considered the premises and being sufficiently advised of and concerning the matters and things set forth in said petition, finds that the same is signed by more than one hundred resident freeholders of said county. Whereupon it is ordered by the court that the question of adopting county school supervision be submitted to the qualified voters of the county of Cape Girardeau, state of Missouri, at the next annual school election to be held in the various school districts in said county on the first Tuesday in April, 1904.

It is further ordered by the court that all voters voting at said election in favor of county school supervision shall have written or printed on their ballots "For supervision" and those voting against, shall have written or printed on their ballots "Against supervision." And it is further ordered by the court that the chairmen and clerks at the annual school meetings and the judges and clerks of the annual school election in city, town and village districts, certify the result of the vote cast on this proposition to the county clerk of Cape Girardeau county, who shall count and announce the same according to law. And it is further ordered by the court that notice be given that such vote will be taken as aforesaid by publishing a certified copy of this order in the JACKSON HERALD, the Cape Girardeau Progress and the Deutscher Volksfreund, newspapers published in said county, thirty days before such election as the law in such cases directs.

STATE OF MISSOURI,
COUNTY OF CAPE GIRARDEAU.
I, J. W. Miller, clerk of the county court, in and for said county, hereby certify the above and foregoing to be a true copy of the proceedings of our said county court, on the day and year above written, as the same appears of record in my office.

[SEAL] of, I have hereunto set my hand and affixed the seal of said court, at office in Jackson, this 25th day of February, 1904. J. W. MILLER, County Clerk.

BLACK-DRAUGHT STOCK and POULTRY MEDICINE

Stock and poultry have few troubles which are not bowel and liver irregularities. Black-Draught Stock and Poultry Medicine is a bowel and liver remedy for stock. It puts the organs of digestion in a perfect condition. Prominent American breeders and farmers keep their herds and flocks healthy by giving them an occasional dose of Black-Draught Stock and Poultry Medicine in their food. Any stock raiser may buy a 25-cent half-pound air-tight can of this medicine from his dealer and keep his stock in vigorous health for weeks. Dealers generally keep Black-Draught Stock and Poultry Medicine. If yours does not, send 25 cents for a sample can to the manufacturers, The Chattanooga Medicine Co., Chattanooga, Tenn.

RECEIVED, GA., Jan. 30, 1902.
Black-Draught Stock and Poultry Medicine is the best I ever tried. Our stock was looking bad when you sent us the medicine and now they are getting so fine. They are looking 25 per cent. better.
S. P. BROCKINGTON.

Facts About Jesse Belle Mine.

The Jesse Belle property consists of forty acres. There are four big ledges from four to eight feet wide, running parallel through the entire length of the property.

The main shaft is now 210 feet deep. Streaks of rich ore are frequently found, and the general character of ore is getting better with depth. The ledge is getting wider with depth—being nine feet wide at bottom of shaft.

The ore is getting softer, and every indication leads us to believe that another hundred feet will reach the big body of high grade ore into which the four ledges converge.

As a mining proposition there is nothing more promising than the Jesse Belle.

I believe that as an investment it is as safe as the average business offers, and the possibilities are unlimited.

Arrangements are being made with a machine man to build a smelter on the property. When this smelter is completed and the shaft down 100 or 200 feet deeper this stock will be worth many times the present price.

To those who can spare a few dollars and would like to make their savings work for them, I recommend Jesse Belle stock.

I will give any man a free trip to California who will get up a subscription for 4,000 shares of Jesse Belle stock; and if the property is not as represented, I will return the whole amount paid for stock. Address all communications to
